

# The Infinity Group Management Recognition Program

---

Pictured Above: Scott Kubisiak, Cole Williams and Travis Timaeus

---

Date: 2/28/2013

Superintendent: Scott Kubisiak

Company: United Electrical & Instrumentation

Travis and Cole were recognized by BASF for their findings while inspecting the rails for a new overhead crane. They found loose bolts and angled washers not in place which would have lead to a potential problem. They were also recognized for getting all chain falls and trolleys inspected in a timely manner prior to the start of a major shutdown.

Joe Pfister, SAP Maintenance/IE Coordinator, BASF
