

The Infinity Group Management Recognition Program

Pictured Above: James Opry, Aaron Ennis

Date: 6-25-2013

Name(s): James Opry

General Manager: Daryl Dauer

Company: Brazos M&E

James noticed that a scaffold was not properly constructed for his employees. The scaffold had inadequate hand rails, planks, ladders, and no inspection tags. This work was on top of a building which did not have any guardrail system in place to protect workers from falling through a three foot gap between building and scaffold. James stopped the job and requested modifications for the scaffold. Great job.
